<b>Agricolae Ltd.</b>	www.agricolae.hu	agricultural and food industry	History of the company group Agricolae Ltd. The company group Agricolae Ltd. was founded in 1998. The purpose of the foundation was to promote the exportation of fruits and vegetables, such as walnut of the region Szatmár and its surroundings in the possibly shortest way. Currently it is a family enterprise dealing with wholesale trade of fruits and vegetables. Further aim of the company is to coordinate and organize the activity of fruit and vegetable producers in the Szatmár region and its surroundings, in order to ensure the safe marketing of their products. The fruits we buy and produce include: gooseberry, sweet cherry, sour cherry, plum and apple. The mentioned fruits are sold both domestically and in foreign markets as raw or preserved food. In order to improve the competitiveness of our company and the quality of our products we constantly make efforts to renew and modernize our factory. The company group Agricolae Ltd. has set up an objective to cover consumer's demand at the highest level and to distribute healthy and tasty fruits at a reasonable price, thus to become a modern, European enterprise in the 21st century. The cooperative Meggy Kert-TÉSZ was founded in 2003. Today it is the cooperative with the highest number of members in Hungary. The cooperative coordinates the work and developments among the producers like an umbrella organization and it promotes the marketing of the fruits produced by its members. The company Szatmár Bio Ltd. joined the organization in 2005, and then in 2009 the enterprise Szatmári Szilvalekvár Ltd. has been also associated with the company group, which nowadays employs about 100 employees. The company's variety of the processed and preserved products offers now the retail size packed jams of the trademark 'Szatmár Íze - The taste of Szatmár', that was continuously introduced to the consumers' market in 2014. This regional flavour, as well as the traditional appearance of the product has become acknowledged soon by <u>both our sales partners and - which is the most important -</u>

<b>V4Roll Ltd.</b>	<a href="http://www.viiroll.eu">www.viiroll.eu</a>	other	<p>V4Roll Ltd. is a Hungarian private enterprise developing, manufacturing and trading innovative new sports articles under the brand name ViiRoll®. Our main product lines are roller skates, skateboards and numerous other innovations. The patented ViiRoll® ROLLER SKATES feature a unique V-shaped wheel suspension that provides much better stability and skating comfort than normal in-line skates - yet they run faster with less effort and are very easy to guide. They come with specialized sets of user-changeable wheels for different surfaces (asphalt, rough ground and ice). The ViiRoll® SKATEBOARDS have flexible rubber wheel supports to absorb the vibration and impacts during use, easing the stress off the rider's joints. The top quality specialized raw materials provide extra durability and impact-resistance for the product.
