Investment Opportunities in the Energy Sector and Dam Construction in Afghanistan

❖ 50 MW wind farm project in Herat

- District: Zandajan
- Amount of Energy: 50 Mw
- Types of design turbine: 2MW
- No of turbine: 25

❖ Baghdara Hydropower Project

- Total Volume: 205 million m³
- Live Storage: 125 million m³
- Full Reservoir Level: 1,375 masl
- Minimum Drawdown Level: 1,335 masl

❖ Qala-e-Mamai Hydro Power Project

- Qal'a-I Mamay: 1 km east of village Qal'a-i-Mamay in Yangi Qala district of Takhar Province
- Height of Dam(m): 161.0
- Catchment area(km): 20183

❖ Sagai Hydropower Project

- Live Storage: 88.691 mcum
- Catchment Area upto Dam Site: 19833 sq. km
- Length: 895.6 m
- Height from deepest foundation level: 84.6 m

❖ Shal hydro power project

- Live Storage: 136.772 mcum
- Catchment Area upto Dam Site: 19056 sq. km
- Length: 1040 m..
- Height from deepest foundation level: 158 m.

❖ Surtaq Dam

- Live Storage: 72.958 mcum
Catchment Area upto Dam Site: 19097 sqkm
- Length: 634 m
- Average Precipitation: 500 mm/year
- Length of NOF blocks: 150 m
